Hidden Markov Models for Time Series
An Introduction Using R, Second Edition

Errata as at 10th December 2017

- On p. 10, the line after the last displayed equation should begin:

  and $\delta_1 = 1 - \sum_{j=2}^{m} \delta_j$.

- On p. 13, part of lines 9–10 should read:

  where the lowest –log-likelihood value that we found by `flexmix`

- On p. 125, part of line 21 should read:

  (i.e. the solution of $\boldsymbol{\delta\Gamma} = \boldsymbol{\delta}$)

- On p. 361, in the author index, the names Macdonald, D.W. and MacDonald, I.L. should have appeared between McCullagh and McFarland.
